

ALL TRANSACTIONS ARE SUBJECT TO THE FOLLOWING TAXES AND FEES:

CALIFORNIA STATE SALES TAX – 7.25%

Retailers engaged in business in California must register with the California Department of Tax and Fee Administration (CDTFA) and pay the state's sales tax, which applies to all retail sales of goods and merchandise except those sales specifically exempted by law. The use tax generally applies to the storage, use, or other consumption in California of goods purchased from retailers in transactions not subject to the sales tax. Use tax may also apply to purchases shipped to a California consumer from another state, including purchases made by mail order, telephone, or Internet. The sales and use tax rate in a specific California location has three parts: the state tax rate, the local tax rate, and any district tax rate that may be in effect. All taxes are collected and forwarded to the appropriate county. Sales tax exemptions requires a retail number, exemption card or out of state delivery. For more information go to <https://www.cdtfa.ca.gov/taxes-and-fees/sales-use-tax-rates.htm>.

STATE OF CALIFORNIA
Franchise Tax Board

CALIFORNIA DEPARTMENT OF FORESTRY LUMBER TAX – 1%

Starting January 1st, 2013 California law requires the payment of a 1% assessment by anyone who purchases lumber products or engineered wood products for use in California. We are required to charge and collect the 1% assessment from you on your lumber purchase, and must forward that 1% assessment directly to the California Department of Tax and Fee Administration (CDTFA). What are lumber products or engineered wood products? In general, these are building products used in construction that contain at least 10% wood. These include many solid wood products and engineered products like plywood and particleboard. However, the assessment does not apply to products where labor has added significant value. Examples include Crane Mats, furniture, paper, doors, tools, firewood, and more. For more information regarding this fee go to California department of fee admission at <https://www.cdtfa.ca.gov/industry/lumber-products.htm>.

CAL FIRE

CREDIT/DEBIT CARD PROCESSING FEE – 4%

This fee is charged by a third-party processing company (intuit.com) to cover the costs of this secure and convenient payment service. Rather than raise all our prices to everyone, we offer cash customers the option to avoid this charge and only charge what we are charged to card paying customers. This helps us keep prices low to everyone. In essence we offer a 4% cash discount to all customers not processing a card, we are just being transparent about it.
